This 1-day (10 hour) Instructor Certification Program is designed to train instructor candidates in the methods of teaching effective self-defense and safety awareness utilizing SABRE pepper spray. This course will enhance the instructor's knowledge in teaching the use and deployment of SABRE pepper sprays. Instructors will learn the essential facts about pepper spray, proper ways to carry pepper spray, how to deploy it effectively against an assailant, methods of teaching, decontamination techniques, as well as actual practice using inert canisters. By attending this course, instructor candidates will learn the SABRE Safety Awareness Concept and how to teach others to understand and adopt its principles. Instructor candidates will also be tested both via a written examination and a practical examination which gauges their instructor skills and qualifications. Finally, instructors will be presented the organizational process involved in planning and carrying out a SABRE Civilian Safety Awareness Program. You will be tested and must prove that you have the ability to teach the course to civilians. **This certification is valid for two (2) calendar years from successfully completing this course, subject to SEC guidelines.**

TOPIC COVERED IN THIS PROGRAM INCLUDE:

- Effectiveness / Safety / Legal Issues
- Self Defense/ Survival Techniques
